| <p><b>WHEN USING AN ELECTRICAL APPLIANCE, BASIC PRECAUTIONS SHOULD ALWAYS BE FOLLOWED, INCLUDING THE FOLLOWING IMPORTANT SAFETY INSTRUCTIONS</b></p> <p>Read these operating instructions carefully before using</p> <p><b>WARNING</b></p> <p>To reduce the risk of fire, electric shock or injury:</p> <p><b>1. Always disconnect the plug when the machine is not in use and before doing any maintenance or cleaning of the machine.</b></p> <p>2. Do not use outdoors or on wet surfaces.</p> <p>3. "This appliance is not intended for use by persons (including children) with reduced physical, sensory or lack of experience and knowledge unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance."</p> <p>4. Use the machine only as described on the present manual. Use only manufacturer's recommended attachments.</p> <p>5. Do not use with damaged cord or plug. If the machine is not working as it should, has been dropped, damaged, left outdoors, or dropped into the water, return it to a authorized dealer for service.</p> <p>6. Do not pull or carry by cord, use cord as a handle, close door on cord, or pull cord around sharp edges or corners.</p> | <p><b>QUANDO SI USANO APPARECCHI ELETTRICI, DEVONO ESSERE SEGUITE NORMALI PRECAUZIONI, INCLUSE LE SEGUENTI NORME DI SICUREZZA</b></p> <p>Leggere attentamente il manuale di istruzioni prima dell'uso</p> <p><b>ATTENZIONE</b></p> <p>Per ridurre il rischio di fuoco, scosse elettriche o danni:</p> <p><b>1. Staccare sempre la spina dalla presa di corrente quando l'apparecchio non è in uso o prima di eseguire regolazioni o manutenzioni.</b></p> <p>2. Non usare la macchina all'esterno o su superfici bagnate.</p> <p>3. "Questo apparecchio non è da intendersi adatto all'uso da parte di persone (incluso bambini) con ridotte capacità fisiche, sensoriali o mentali, o prive di esperienza e conoscenza, a meno che siano state supervisionate o istruite riguardo all'uso dell'apparecchio da una persona responsabile della loro sicurezza. I bambini dovrebbero essere supervisionati per assicurarsi che non giochino con l'apparecchio."</p> <p>4. Usare l'apparecchio solo come descritto nel presente manuale. Usare solo gli accessori raccomandati dal costruttore.</p> <p>5. Non usare con cavo o spina danneggiati. Se la macchina non funziona come dovrebbe, è caduta, danneggiata, lasciata all'esterno, o caduta nell'acqua, ritornatela ad un centro assistenza autorizzato.</p> <p>6. Non tirare mai o trasportare</p> | <p><b>WENN MAN ELEKTRISCHE GERÄTE BENÜTZT SOLLTE MAN GEWISSE VORSICHTSMASSNAHMEN BEACHTEN, EINSCHLIEßLICH DER FOLGENDEN ZUR BESONDEREN BEACHTUNG</b></p> <p>Lesen Sie die ganze Gebrauchsanweisung vor dem Gebrauch durch</p> <p><b>ACHTUNG</b></p> <p>um Feuergefahr, Elektroschocks oder Schäden einzuschränken:</p> <p><b>1. Gerät nie mit angeschlossenem Netzkabel abstellen. Den Netzstecker bei längerer Nichtverwendung und vor jeder Wartungsarbeit aus der Steckdose ziehen.</b></p> <p>2. Die Maschine weder draussen noch auf nassen Oberflächen benutzen</p> <p>3. Dieses Gerät ist kein Spielzeug! Bitte große Aufmerksamkeit bei der Arbeit in der Nähe von Kindern.</p> <p>4. Gebrauchsanweisung und Warnungen des Herstellers beachten. Nur zugelassenes Zubehör verwenden.</p> <p>5. Gerät nie bei beschädigtem Netzkabel benutzen. Gerät zum Service Center bringen wenn es nicht richtig funktioniert, heruntergefallen ist oder dem Regen ausgesetzt wurde.</p> <p>6. Gerät nie am Kabel tragen oder ziehen. Das Kabel sollte nicht in Türen eingeklemmt oder über scharfkantige Gegenstände gezogen werden.</p> | <p><b>QUAND ON UTILISE DES APPAREILS ELECTRIQUES ON DOIT SUIVRE DES RÈGLES FONDAMENTALES Y COMPRISES LES SUIVANTES CONSIGNES DE SÉCURITÉ</b></p> <p><b>Lire attentivement le mode d'emploi avant l'utilisation</b></p> <p><b>ATTENTION</b></p> <p>: pour réduire tout risque de feu, décharges électriques ou dégâts.</p> <p><b>1. Débrancher toujours la fiche de la prise de courant quand vous n'utilisez pas l'appareil ou avant tout réglage ou entretien.</b></p> <p>2. Ne pas utiliser la machine à l'extérieur ou sur les sols mouillés.</p> <p>3. Cette machine n'est pas un jouet ! Faire particulièrement attention en cas d'utilisation à la présence d'enfants.</p> <p>4. Utiliser uniquement l'appareil comme il est indiqué dans le mode d'emploi et utiliser les accessoires recommandés par le fabricant.</p> <p>5. Ne pas utiliser l'appareil si la prise ou le cordon d'alimentation sont endommagés. Si la machine ne fonctionne pas comme elle devrait, à cause de chute, laissée à l'extérieur, tombé dans l'eau, la rapporter à un centre autorisé Lindhaus.</p> <p>6. Ne pas tirer ni transporter la machine par le câble d'alimentation; ne pas coincer le câble entre les portes et à ne</p> | <p><b>CUANDO SE USAN APARATOS ELÉCTRICOS DEBEN TOMARSE NORMALES PRECAUCIONES INCLUIDAS LAS SIGUIENTES. INSTRUCCIONES DE SEGURIDAD</b></p> <p>Lea Atentamente el manual de instrucciones antes del uso</p> <p><b>ATENCIÓN</b></p> <p>: para reducir el riesgo de fuego, descargas eléctricas y daños.</p> <p><b>1. Desconecte siempre el enchufe cuando no use la máquina o antes de cualquier regulación o mantenimiento.</b></p> <p>2. No usar en lugares exteriores o sobre superficies mojadas.</p> <p>3. No descuide la máquina y no permita que se use como un juguete. Tener cuidado cerca de los niños.</p> <p>4. Utilizar la máquina como está indicado en el manual. Utilizar sólo accesorios recomendados por el fabricante.</p> <p>5. No utilice con enchufe o cable estropeados, Si la máquina no funciona porque cayó, la dejaron al exterior, cayó en el agua, llévela a un centro de asistencia autorizado.</p> <p>6. Nunca tire o lleve el aparato por el cable de alimentación, ni tampoco tire el cable en rincones o puerta cerradas. Tener lejos de las fuentes de calor.</p> |

Gerät an einem trocknen Platz benutzen und aufbewahren, Temperatur zwischen +5°C ÷ +35°C (+41°F ÷ +95°F)</p> <p>17. Gerät nicht Sonnenstrahlen und UV-Strahlen aussetzen</p> | <p>pas le laisser glisser sur des angles tranchants. Tenir le câble loin de toute surface chaude.</p> <p>7. Ne pas débrancher la machine en tirant par le cordon mais uniquement en tirant par la prise.</p> <p>8. Ne pas tenir la fiche ou l'appareil avec les mains Mouillées.</p> <p>9. Ne pas introduire d'objets dans le ouvertures. Ne pas utiliser avec les ouvertures bouchées ; les tenir libérées de la poussière, cheveux ou tout ce qui pourrait gêner le passage de l'air.</p> <p>10. Ne pas approcher cheveux , vêtements, doigts etc. des ouvertures et des parties en mouvement.</p> <p>11. Eteindre tous les contrôles et la machine aussi avant de débrancher la fiche.</p> <p>12. Faire très attention à l'utilisation sur les escaliers.</p> <p>13. Ne pas utiliser pour aspirer les liquides en général ou inflammables, comme essence ou endroit ou celle-ci est présente.</p> <p>14. Ne pas aspirer d' allumettes, de cendre ou mégots allumés.</p> <p>15. Eviter d'aspirer les objets durs ou tranchants afin de ne pas abîmer le sac ou l'appareil.</p> <p>16. Utiliser et conserver l'appareil dans un endroit sec et à températures entre +5°C ÷ +35°C (+41°F ÷ +95°F)</p> <p>17. Ne pas exposer l'appareil aux rayons solaires et UV</p> | <p>7. No desenchufe tirando por el cable. Tire el enchufe, no el cable.</p> <p>8. No tener el enchufe o la máquina con las manos mojadas.</p> <p>9. No poner ningún objeto cerca de las aberturas. No utilizar con las aberturas atascadas de polvo, cabellos o cualquier cosa que podría reducir el paso del aire.</p> <p>10. Mantener siempre cabellos, ropas, dedos y todas las partes del cuerpo lejos de las partes en movimiento.</p> <p>11. Apagar todos los controles y la máquina también antes de desenchufar la máquina.</p> <p>12. Tener cuidado cuando se usa en las escaleras.</p> <p>13. No utilizar para aspirar líquidos en general y inflamables como la gasolina ni tampoco en lugar donde hay estos líquidos.</p> <p>14. No aspire cerillas, ceniza y cigarrillos que estén todavía encendidos.</p> <p>15. No aspire objetos afilados porque podría dañar la bolsa que recoge el polvo y también la máquina.</p> <p>16. Utilizar y poner la máquina en lugares a temperaturas entre +5°C ÷ +35°C (+41°F ÷ +95°F)</p> <p>17. No exponga el aparato a los rayos solares y UV.</p> |

- **CONGRATULATIONS:** We wish to congratulate you on having purchased RX , certainly one of the best and technologically most advanced carpet cleaners. We thank you for your choice and enjoy your new RX !
- **CONGRATULAZIONI:** Ci complimentiamo con voi per aver scelto RX, sicuramente uno dei migliori e tecnologicamente più avanzati battitappeti. RingraziandoVi per la preferenza accordataci, Vi auguriamo un piacevolissimo utilizzo della Vs. nuova RX.
- **GLÜCKWUNSCH:** Wir gratulieren Ihnen für Ihre Wahl, sicher ist Ihre RX eine der besten und fortschrittlichsten Teppichklopffmaschinen. Wir danken Ihnen für Ihre Vorliebe und wünschen Ihnen eine angenehme Verwendung Ihrer neuen RX.
- **FÉLICITATIONS:** Nos meilleurs compliments pour avoir choisi RX, un des meilleurs aspiro-batteurs fabriqué selon les technologies plus avancées. Nous vous remercions pour la préférence et vous souhaitons une agréable utilisation de la nouvelle RX.
- **CONGRATULACIONES:** Nos felicitamos con Ustedes por haber escogido RX, una de las mejores batidoras tecnológicamente más avanzada. Les agradecemos por su preferencia y les deseamos un agradable uso de esta nueva RX.

## FOR U.S.A. and CANADA COMMERCIAL MARKET ONLY

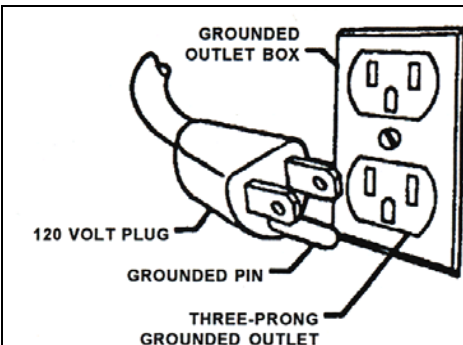

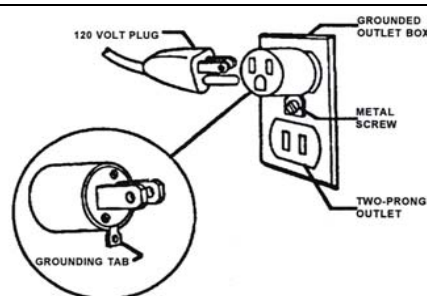

Connect to a properly grounded outlet only. See grounding instructions.

### GROUNDING INSTRUCTIONS IN COMMERCIAL SITUATIONS

#### WARNING

This machine must be properly grounded to protect the operator from electrical shock, in a commercial environment, in accordance with safety regulations. Read the safety instructions below before operating the machine.

120 V machines have this kind of three-prong plug at the end of a three-wire electrical cord. The grounding pin on this plug grounds the machine when it is plugged into a three prong outlet.

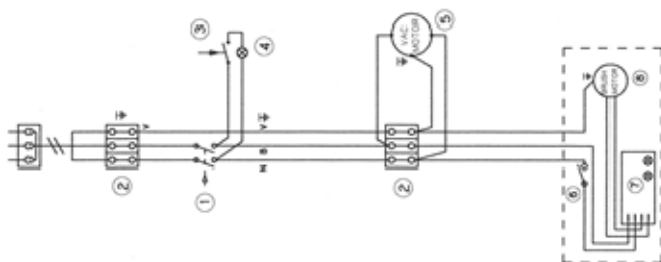

A grounding adapter must be installed as shown here if only two-prong outlets are available.

The outlet box must be grounded and the grounding tab (or wire) on the adapter must be installed under the head of screw in the center of the outlet cover.

120 Volt plugs are available at most hardware stores.

Grounding adapters are not approved for use in Canada

- Replace the plug if the grounding pin is damaged or broken.
- The green or (green/yellow) wire in the cord is the grounding wire.
- When replacing a plug, this wire must be attached to the grounding pin only.
- Extension cords connected to this machine should be 12 gauge, three-wire cords with three-prong plugs and outlets. Do not use extension cord more than 50 feet (15 m.) long.

#### WIRING DIAGRAM

- 1 main switch ON-OFF
- 2 terminal block 3 P
- 3 vacuum sensor
- 4 indicator light
- 5 vacuum motor
- 6 microswitch
- 7 circuit board
- 8 brush motor

## IMPORTANT

### Thermal vacuum motor protector.

The vacuum motor is equipped with a safety thermal protector. Should the vacuum become overloaded by vacuuming with the bag full, or vacuuming with very dirty filters, or if the vacuum should have a clog, the thermal protector will protect the motor from overheating by shutting the motor down automatically. In this case, switch off the vacuum, disconnect the plug and check the bag, check the filters and also check for signs of clogging (see page 9). After the problem is corrected you may resume vacuuming after the thermal protector resets itself (approximately 30-40 minutes).

## IMPORTANTE

### Protettore termo/amperometrico del motore aspirante

Il motore aspirante è provvisto di un termico di sicurezza. In caso di: sovraccarico (aspirare tappeti a pelo alto con regolazione troppo bassa), lavorare con sacco pieno, lavorare con microfiltro/Hepa filtro eccessivamente sporchi, il protettore termico può intervenire per proteggere il motore da eccessivo surriscaldamento. Spegner la macchina, staccare la spina e controllare: il sacco, il microfiltro/ Hepa filtro ed eventuali ostruzioni (pag. 9). Dopo 30-40 min. circa si può riaccendere la macchina.

## WICHTIG

### Thermo/Amperemeterschutz des Saugmotors

Der Saugmotor ist mit einem Sicherheitstemperaturbegrenzer ausgestattet. Bei : Überlastung, (Saugen von Teppichen mit hohem Floor mit der niedrigsten Einstellung), Saugen mit vollen Beutel, mit sehr schmutzigem Mikrofilter oder Hepa Filter, greift der Schutz ein um eine Überheizung des Motors zu vermeiden. Schalten Sie die Maschine ab, ziehen Sie den Netzstecker aus der Steckerdose und kontrollieren Sie den Papierbeutel, den Mikrofilter/Hepa Filter und eventuelle Verstopfungen (auf Seite 9). Nach 30-40 Min. können Sie die Maschine wieder benutzen.

## IMPORTANT

### Protecteur thermo/ampèremétric pour le moteur aspirant.

Le moteur aspirant est pourvu d'un système thermique de sécurité. En cas de: surcharge (aspirer tapis à poil haut avec une régulation minimum), aspirer avec sac plein, aspirer avec microfiltre ou Hepa filtre très sales, le thermo-protecteur intervient pour protéger le moteur d'une excessif surchauffage. Débrancher la machine et détacher la fiche de la prise de courant et contrôler: le sac à poussière, le microfiltre/le filtre Hepa et éventuelles obstructions (page 9).Après 30-40 min. on peut réutiliser la machine.

## IMPORTANTE

### Protector termo/amperométrico del motor aspirador

El motor aspirador tiene un protector térmico de seguridad. En caso de sobrecarga (aspirar alfombras de pelo alto con regulación toda baja), trabajar con bolsa llena, trabajar con microfiltro /Hepa filtro excesivamente sucios, el protector térmico puede intervenir para proteger el motor de excesivo sobrecalentamiento.

Apagar la máquina, desenchufar y controlar: la bolsa, el microfiltro/ Hepa filtro y eventuales obstrucciones (pág.9).Después de 30-40 min. se puede volver a encender la máquina.

### Technical improvements

Lindhaus reserves the right to make technical improvements and modifications without prior notice. For this reason, the appliance can deviate in details from the leaflet information.

### Migliorie tecniche

Lindhaus si riserva il diritto di apportare delle migliorie tecniche e delle modifiche senza preavviso. In tal caso alcuni dettagli potranno non risultare conformi alle informazioni riportate sulla documentazione tecnica.

### Technische Verbesserungen

Lindhaus behält sich technische Verbesserungen im Rahmen der Modellpflege vor.

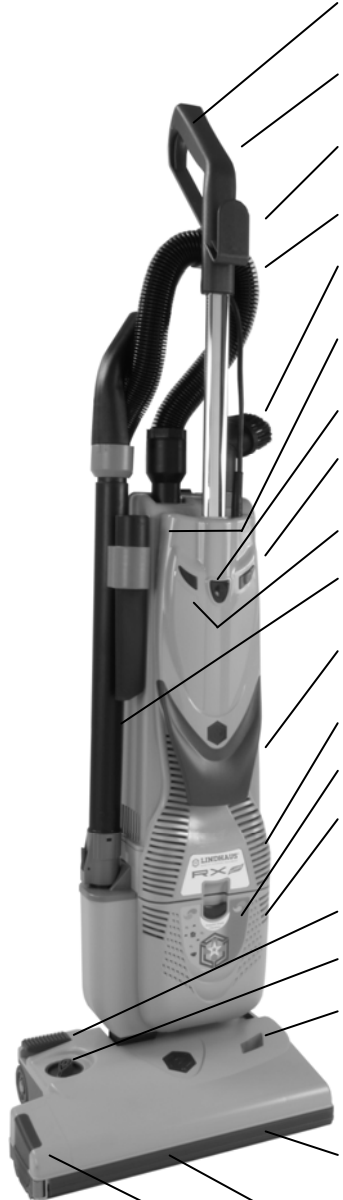

Daher kann das Gerät in Details von Prospektangaben abweichen.

### Perfectionnements techniques

Lindhaus se réserve le droit de procéder à des perfectionnements techniques dans le cadre de la gestion de ses modèles. Certain détails de la machine peuvent ainsi différer des donnés indiquées dans les prospectus

### Mejoras técnicas

Lindhaus reserva el derecho a hacer cualquier modificación y arreglo técnico sin previo aviso. Por esta razón, los detalles acerca de la maquina podrían resultar diferentes de las informaciones indicadas en el manual de información.

|     | <p><b>ASSEMBLY INSTRUCTIONS</b></p> <p>Insert the chrome handle into the hole in the top of the switch housing. Push down until the button snaps into the proper position.</p>                                                                                                                                    | <p><b>ISTRUZIONI PER LA MESSA IN FUNZIONE</b></p> <p>Inserire il tubo cromato nell'apposita sede e premere fino a quando il pulsante scatta nell'apposita sede.</p>                                                                                                                                                    | <p><b>MONTAGE</b></p> <p>Die verchromte Führungsstange in die Öffnung des Sauggeräts einsetzen und hinunterdrücken bis der Arretierknopf einschnappt.</p>                                                                                                                                                                | <p><b>MONTAGE</b></p> <p>Introduire le tube chromé dans son logement le pousser vers le bas jusqu'à ce que le bouton de blocage s'encastre.</p>                                                                                                                                                             | <p><b>INSTRUCCIONES PARA EL MONTAJE</b></p> <p>Introduzca el tubo cromado dentro del hueco que está encima del interruptor. Empuje hacia abajo hasta que el botón encaje en el hueco que está entre el interruptor y el indicador de bolsa llena.</p>                                                              |
|    | <p>Insert the one end of the vacuum hose into the top of the vacuum body and the other into the extension wand provided. Insert the wand into the hole and clip on the right side of the machine. Snap the hose into the clip below the handle as shown.</p>                                                      | <p>Inserire i tubi e gli accessori nelle apposite sedi e clip di sostegno. Inserire il tubo estensibile nel gancio superiore che ha anche la funzione di scaricare a terra le correnti elettrostatiche che si formano all'interno del tubo stesso. Agganciare il cavo su apposito gancio para strappi.</p>             | <p>Saugschlauch, Rohr und Zubehör in die dafür vorgesehenen Öffnungen und Halterungen stecken. Den Saugschlauch in den oberen Haken einführen, der zugleich den elektrostatischen Strom, der sich innerhalb des Schlauchs bildet, am Boden ableitet. Das Kabel am Anti-Ruck Hacken befestigen.</p>                       | <p>Introduire les tubes et les accessoires dans leurs embouts et clips de soutien. Introduire le tube extensible dans le crochet supérieur qui a aussi la fonction de décharger à terre le courant électrostatique qui se forme à l'intérieur du tube. Accrocher le câble à son crochet anti arrachage.</p> | <p>Introducir los tubos y accesorios en sus alojamientos y clips de sostén. Introducir la manguera extensible en el gancho superior que tiene también la función de descarga a tierra de la corriente estática que se produce en el interior de la misma manguera. Enganchar el cable con su gancho antitirón.</p> |
|  | <p>Wind the electrical cord around the cord hook on the handle and the swing out cord hook on the front of the machine.</p> <p>To release the cord, push the buttons between the switch and bag full light and push the handle down. Slide the handle back into the locked position before using the machine.</p> | <p>Avvolgere il cavo tra il gancio avvolgicavo dell'impugnatura e l'impugnatura di trasporto nel fronte della macchina.</p> <p>Per sganciare il cavo dagli appositi agganci premere i pulsanti e spingere l'impugnatura verso il basso. Riportare l'impugnatura in posizione di blocco prima di usare la macchina.</p> | <p>Das Kabel zwischen dem Kabelhaken am Handgriff und dem Transportgriff auf der Vorderseite der Maschine aufwickeln.</p> <p>Um das aufgewickelte Kabel vom Haken zu lösen den Arretierknopf drücken und die Führungsstange nach unten stoßen. Die Führungsstange wieder blockieren bevor die Maschine benutzt wird.</p> | <p>Enrouler le câble entre autour du crochet présent sur la poignée et la poignée de transport sur le devant la machine</p> <p>Enrouler le câble de des crochets appuyer sur le bouton et pousser la poignée vers le bas. Ramener la poignée en position de blocage avant d'utiliser la machine</p>         | <p>Enrollar el cable alrededor del gancho de la empuñadura y la empuñadura de transporte en la parte frente de la máquina.</p> <p>Para desenganchar el cable de sus ganchos presionar el botón y empujar hacia abajo. Volver a posicionar la empuñadura en posición de bloqueo antes de usar la máquina.</p>       |

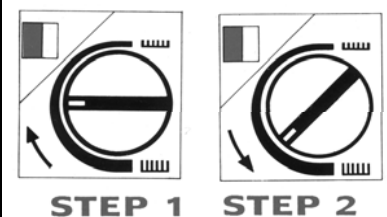

Install the bag housing on the brush housing and slide the lock to the left as shown.

## OPERATING INSTRUCTIONS

Switch on the machine (power switch), depress the foot pedal (by foot) and move the vacuum body in working position. The brush motor will automatically turn on.

## BRUSH HEIGHT ADJUSTMENT

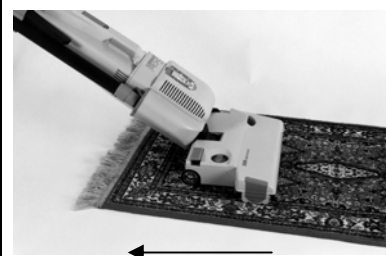

Your carpet cleaner has several built in safeguards to protect components from overload damage. The electronic circuitry that operates the red light on the base indicates that the motor is overloading because the brush height is set too low or there are debris hindering the movement of the brush roller. If the overload is excessive the circuitry will shut off the brush motor and the red light will stay on until the problem is corrected. When the problem is corrected turn the switch off, wait for a moment and turn it back on. Make sure you unplug the machine while inspecting the brush roller for debris.

**STEP 1:** With machine on and handle in normal operating position, slowly rotate brush adjustment knob clockwise until red light turns on.

**STEP 2:** Turn brush adjustment knob slowly counterclockwise until red light turns off.

**NOTE:** If the red light goes on and off intermittently while vacuuming, this is correct. If the red light stays on all the time, turn the knob as STEP 2.

In case of fringed carpets the machine must be used from the centre to the outside. With one colour carpet or those whose weaves have tendency to form lines, it's better to follow the direction of the material to get a consistent surface appearance.

Inserire il corpo aspirante nello snodo e leva di supporto e spostate il gancio di bloccaggio in posizione "close".

## ISTRUZIONI PER IL FUNZIONAMENTO

Accendere la macchina, premere il pedolino di sgancio snodo ed inclinare la macchina in posizione di lavoro. Il motore elettrospazzola si accenderà automaticamente

## DISPOSITIVO PER REGOLARE L'ALTEZZA

Il Vs. battitappeto ha diversi dispositivi di sicurezza per proteggere i componenti da danni dovuti a sovraccarico. Il circuito elettronico che mette in funzione la spia rossa sulla base indica che il motore è in sovraccarico perché l'altezza della spazzola è troppo bassa o perché ci sono detriti che bloccano il funzionamento del rullo. Se il sovraccarico è eccessivo il circuito spegnerà il motore elettrospazzola e la spia rossa rimarrà accesa finché il problema non viene risolto. Spegner l'interruttore, togliere la spina e quando il problema è risolto, riaccendere la macchina.

**PASSO 1:** con la macchina accesa e con l'impugnatura in posizione normale di lavoro, ruotate piano in senso orario il regolatore finché la spia rossa si accende.

**PASSO 2:** ruotate il regolatore in senso antiorario fino a che la spia rossa si spegne.

**NOTA:** se la spia rossa si accende in modo intermittente mentre la macchina è in lavoro, la regolazione è corretta. Se invece rimane sempre accesa, regolare come passo 2.

In caso di tappeti con frange bisogna procedere dall'interno verso l'esterno. Con tappeti a tinta unita o moquette con trame che tendono a formare strisce, è consigliabile seguire la direzione del pelo per ottenere una superficie omogenea.

Den Saugkörper auf das Bürstengehäuse setzen und die Verriegelung nach links in Position "close" schieben.

## BEDIENUNG DER MASCHINE

Hauptschalter einschalten und die Führungsstange durch Drücken des Fusspedals entrasten und in Arbeitsposition bringen. Der Bürstenmotor wird erst in Betrieb gesetzt, wenn die Führungsstange in Arbeitsposition ist.

## SAUGBÜRSTEN HÖHENVERSTELLUNG

Bürstenverstellung drehen, um die Bürstenhöhe von 1 mm-10mm einzustellen. Die Bürstenhöhe sollte den jeweiligen Teppichbelägen angepasst werden. Die Bürstenmotor-Kontrolllampe in grüner Position zeigt die korrekte Höheneinstellung der Bürste an. Sobald die Lampe auf rot wechselt, ist die Bürste zu tief eingestellt. Nach einigen Sekunden Betrieb auf Rotlicht schaltet der Motor automatisch ab. Hauptschalter ausschalten, Netzkabel aus der Steckdose ziehen und, wenn das Problem behoben ist, schalten Sie die Maschine nochmals ein.

**SCHRITT 1:** Bei eingeschalteter Maschine und mit Griff in normaler Arbeitsstellung, den Regler langsam im Uhrzeigersinn drehen, bis sich die rote Kontrolllampe einschaltet. **SCHRITT 2:** Den Regler gegen den Uhrzeigersinn drehen, bis sich die rote Kontrolllampe ausschaltet.

**ANMERKUNG:** Wenn die rote Kontrolllampe ab und zu aufleuchtet während die Maschine arbeitet, ist die Regulierung korrekt, wenn sie hingegen immer anbleibt, regulieren wie Schritt 2.

Teppiche mit Fransen sollten von innen nach aussen gesaugt werden. Unifarbiges oder tiefflooriges Teppiche sollten immer in Richtung des Floors (im Strich) gesaugt werden.

Introduire le corps aspirant dans le raccordement et le levier de support et mettre le crochet blocage en position «close».

## INSTRUCTIONS POUR LE FONCTIONNEMENT

Mettre en marche l'aspirateur; appuyer sur la pédale de déblocage et l'incliner en position de travail. Le moteur de l'aspiro-batteur se mettra en marche automatiquement.

## REGLAGE DE L'HAUTEUR

Votre aspiro-batteur a plusieurs dispositifs de sécurité pour protéger ses composants contre les dangers de surcharge. Le circuit électronique qui actionne le voyant rouge, indique que le moteur est en surcharge, soit à cause de l'hauteur de la brosse, trop basse, soit à cause des débris qui empêchent le fonctionnement du rouleau. Si la surcharge est excessive, le circuit arrêtera le moteur de la brosse et le voyant rouge restera allumé jusqu'à ce que le problème sera résolu. Eteindre l'appareil, débrancher et le rallumer que lorsque le problème sera résolu.

**PAS 1:** Mettre l'appareil en marche et la poignée en position normale de travail, tourner doucement le régulateur en sens horaire, jusqu'à ce que le voyant rouge s'allume.

**PAS 2:** Tourner le régulateur en sens anti-horaire, jusqu'à ce que le voyant rouge s'éteigne.

**REMARQUE:** Si le voyant rouge clignote pendant que l'appareil est en marche le réglage est correct, si par contre il reste toujours allumé, il faut régler d'après le pas n°2.

Sur les tapis à franges, passer l'aspiro-batteur de l'intérieur vers l'extérieur. Sur les tapis d'une seule couleur et les moquettes qui ont la tendance à laisser des rayures, il est conseillé de suivre le sens du poil afin d'obtenir une surface parfaitement homogène.

Conectar la aspiradora al cepillo eléctrico y mover el gancho de bloqueo en posición "close".

## ISTRUCCIONES DE FUNCIONAMIENTO

Encienda la máquina, pulse el pedal con el pie e incline la máquina en posición de trabajo. El motor se encenderá automáticamente

## REGULACIÓN DE LA ALTURA

Su bateador tiene varios dispositivos de seguridad para proteger los componentes de daños debidos a problemas de sobrecarga. El circuito electrónico que pone en funcionamiento la luz roja, indica que el motor está sobrecargado porque la altura del cepillo está colocada demasiado baja o hay deshechos que dificultan el movimiento del rodillo. Si la sobrecarga es excesiva, el circuito desconectará el motor del cepillo y la luz roja permanecerá encendida hasta que el problema sea corregido. Cuando el problema esté corregido, apague la luz, espere un momento y vuélvalo a enchufar. Asegúrese de tener todo bien revisado antes de volver a enchufar la máquina.

**PASO 1:** Con la máquina encendida y el mango en posición normal de trabajo, lentamente gire la ruedecilla en el sentido de las agujas del reloj hasta que la luz roja se encienda.

**PASO 2:** Gire la ruedecilla lentamente en sentido contrario a las agujas del reloj, hasta que la luz roja se apague.

**NOTA:** Si la luz roja se enciende y apaga intermitentemente mientras aspiramos, es correcto. Si la luz roja permanece todo el tiempo encendida, gire la ruedecilla como le indicamos en el paso 2.

En el caso de alfombras con flecos la máquina debe ser usada desde el centro hacia fuera solamente. Con una alfombra lisa o cuyos tejidos tienen una tendencia a formar líneas, es aconsejable seguir la dirección del material para conseguir un aspecto consistente en la superficie.

On board attachments are provided for above floor vacuuming requirements.

Il vostro battitappeto è anche un aspirapolvere per la pulizia aerea ed è dotato di utili accessori.

Ihre Teppichklopmaschine ist auch ein Staubsauger für die allgemeine Reinigung und ist mit nützlichem Zubehör ausgestattet.

Votre aspiro-batteur est aussi un aspirateur pour le nettoyage des espaces hauts et est équipé de plusieurs accessoires utiles.

Su aspiradora battidora es también una aspiradora para la parte más alta de la casa, y dispone de accesorios útiles.

Additional optional attachments including a hard floor tool Lindhaus M28R can be provided by your dealer.

Si può trasformare anche in scopa elettrica con la spazzola Lindhaus M28R. Chiedete al vs. rivenditore.

Sie kann sich auch in einen elektrischen Besen verwandeln mit dem optionalen Zubehör Lindhaus M28R

Vous pouvez le transformer aussi en balai électrique grâce aux accessoires disponibles en option Lindhaus M28R.

Se puede convertir también en escoba eléctrica con los accesorios opcionales disponibles Lindhaus M28R.

With the special blower port accessory (optional) your vacuum cleaner becomes a blower.

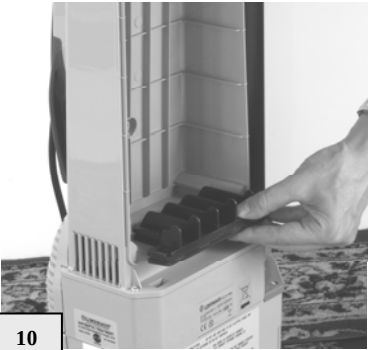

Con lo speciale accessorio “Soffiatore” (optional) la Vs. macchina può anche soffiare.

Mit dem speziellen “Blaszubehör” (separater Artikel) kann Ihr Sauger auch blasen.

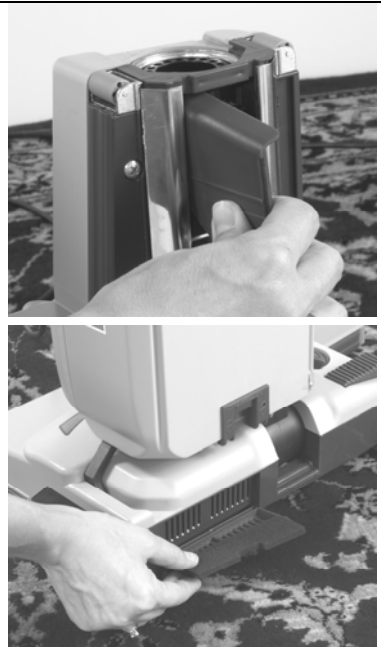

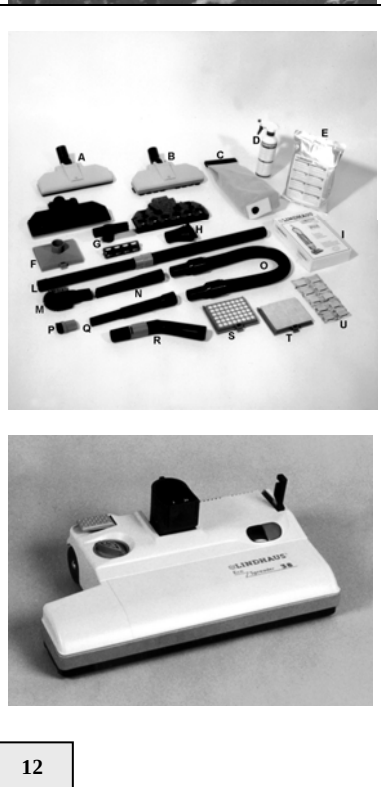

Grâce à l’accessoire spécial «Souffleur» (en option), votre aspirateur peut aussi souffler.

Con el utensilio “Soplador” (opcional), su aspiradora se convierte en “sopladora”.

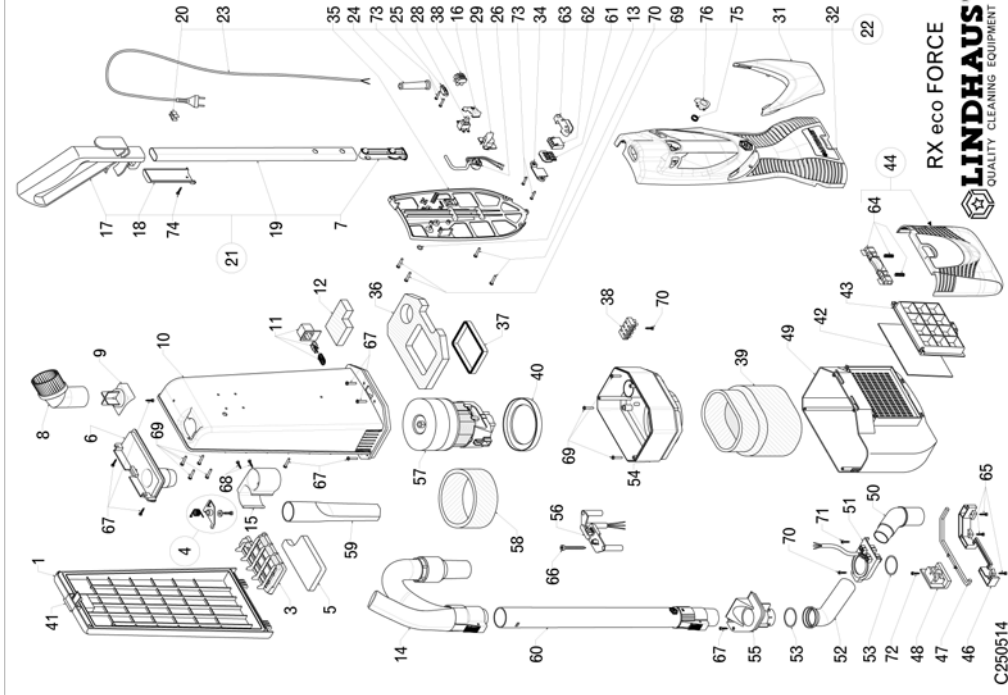

|                                                                                                                  |                                                                                                                                    |                                                                                                                                     |                                                                                                                            |                                                                                                                |

                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | |   | <p><b>CHANGING THE ELECTROSTATIC EXHAUST FILTER</b></p> <p>The electrostatic exhaust filter catches any particles that may escape from the filter bag, vacuum inlet filter, or lower motor filter. The electrostatic exhaust filter is located just below the carrying handle. Replace the filter every fifth time you change the bag (more often in very dusty applications). To replace the electrostatic filter:</p> <ol style="list-style-type: none"> <li>1. Depress the latch on the top of the filter grill and remove it.</li> <li>2. Remove the filter from the filter holder and insert a new original Lindhaus filter in its space (when you put the grill into place, with one hand hold the filter while the other inserts the grill).</li> <li>3. Snap the filter cover back into place.</li> </ol> <p><b>Never operate the machine without the original Lindhaus Electrostatic Exhaust Filter in place.</b></p> | <p><b>SOSTITUZIONE MICROFILTRO USCITA ARIA</b></p> <p>Il filtro elettrostatico blocca le microparticelle che gli altri filtri non riescono a trattenere ed evita la fuoriuscita di micropolvere di carbone prodotta dal motore. Il microfiltro è situato nella zona sotto l'impugnatura di trasporto. Sostituire il microfiltro ogni 5a sostituzione del sacco di carta (più spesso in applicazioni molto polverose). Per sostituire il filtro:</p> <ol style="list-style-type: none"> <li>1. Togliere la griglia premendo l'apposito pulsante.</li> <li>2. Rimuovere la contro griglia e sostituire il microfiltro originale Lindhaus facendo attenzione ad applicarlo nella corretta posizione (quando si rimonta la griglia, con una mano tenere il filtro e con l'altra inserire la griglia).</li> <li>3. Rimontare la griglia.</li> </ol> <p><b>Non usare mai la macchina senza il microfiltro elettrostatico originale Lindhaus.</b></p> | <p><b>AUSTAUSCHEN DES ELEKTROSTATISCHEN AUSLAßFILTERS</b></p> <p>Zweck dieses Filters ist es, Staub der durch die anderen Filterstufen gelangt, aufzufangen. Der Filter befindet sich direkt unter dem Traggriff und sollte nach jedem fünften Wechsel des Staubbeutels gereinigt werden (häufiger bei sehr staubigen Reinigungsanwendungen).</p> <ol style="list-style-type: none"> <li>1. Filterdeckelklinge drücken und Auslaßfilterdeckel entfernen.</li> <li>2. Filter aus der Halterung herausnehmen und mit einem neuen originalen Lindhaus Filter ersetzen (bei Zurückstellung des Gitters mit einer Hand den Filter halten und mit der anderen das Gitter einsetzen).</li> <li>3. Das Gitter zurückstellen.</li> </ol> <p><b>Gerät nie ohne den originalen elektrostatischen Lindhaus Filter benutzen.</b></p> | <p><b>REEMPLACEMENT DU FILTRE ÉLECTROSTATIQUE</b></p> <p>Ce filtre retient les particules fines qui s'échappent des autres filtres. Il est placé juste au-dessous de la poignée de transport. Changer ce filtre tous les cinq changements de sac à poussière (plus souvent dans des conditions de travail particulièrement poussiéreuses). Pour le changer:</p> <ol style="list-style-type: none"> <li>1. Ôter la grille en appuyant sur le bouton.</li> <li>2. Enlever le filtre du support et poser un nouveau filtre original Lindhaus en faisant attention à bien le remettre en place (quand on remonte la grille il faut tenir d'une main le filtre, de l'autre la grille).</li> <li>3. Remonter la grille.</li> </ol> <p><b>Ne jamais utiliser la machine sans que le filtre original Lindhaus soit en place.</b></p> | <p><b>SUSTITUCIÓN DEL FILTRO ELECTROSTATICO</b></p> <p>El filtro electrostático coge cualquier partícula que pueda escapar de otros filtros. El filtro electrostático está situado debajo de la manija y debe cambiarse cada 5 bolsas que use (en lugares muy polvorientos debe cambiarse más a menudo). Para sustituir el filtro electrostático:</p> <ol style="list-style-type: none"> <li>1. Presione el pulsador de la rejilla y sáquelo.</li> <li>2. Saque el filtro de la rejilla y inserte un nuevo filtro Lindhaus en su lugar (soportar el microfiltro con una mano).</li> <li>3. Monte otra vez la rejilla.</li> </ol> <p><b>Nunca debe de utilizar el aparato sin un filtro electrostático original Lindhaus.</b></p> |
|                                                                                   | <p><b>HEPA FILTER (optional)</b></p> <p>Your carpet cleaner Lindhaus can be equipped with a special filter for healthcare environments which ensures 99,97% filtration efficiency at 0.3 micron. In case the filter bag should break, the Hepa filter must also be replaced. Change the Hepa filter every 10 bags.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | <p><b>FILTRO HEPA (optional)</b></p> <p>Il vostro battitappeto Lindhaus può essere dotato di uno speciale filtro assoluto per ambienti sanitari che assicura un'efficienza filtrante del 99,97% a 0,3 micron. In caso di rottura del sacco filtro, anche il filtro hepa deve essere sostituito. La durata massima del filtro Hepa è di 10 sacchi filtro.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | <p><b>HEPA FILTER (optional)</b></p> <p>Der Lindhaus-Sauger kann mit einem speziellen Filter für Reinräume ausgestattet werden, der eine Filtrierleistungsfähigkeit von 99,97 % zu 0,3 Mikron sicherstellt. Sollte der Papierfilterbeutel reißen, muß auch der Hepa-Filter gewechselt werden. Der Hepa-Filter sollte immer nach 10 Papierfilterbeuteln erneuert werden.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                             | <p><b>HEPA FILTER (en option)</b></p> <p>Votre aspirateur peut être équipé d'un filtre spécial pour tout milieu sanitaire spécial et assure une capacité filtrante de 99,97% à 0,3 micron. En cas de rupture du sac filtre, il faudra remplacer aussi le filtre Hepa. Durée maximum d'utilisation du filtre Hepa : 10 sacs filtre.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | <p><b>FILTRO HEPA (opcional)</b></p> <p>Su Bateador LINDHAUS puede estar equipado con un filtro especial para ambientes sanitarios, el cual, asegura un filtrado eficiente del 99,97% a 0,3 micrones. En caso de rotura de la bolsa, el filtro Hepa también necesita ser sustituido. La duración máxima del filtro Hepa es de 10 bolsas.</p>                                                                                                                                                                                                                                                                                                                                                                                     |
|                                                                                  | <p><b>CHANGING THE BRUSH ROLLER</b></p> <ol style="list-style-type: none"> <li>1. Lay the machine on the left side.</li> <li>2. Slide the side cover (item n. 46/page 14) off the end of the brush housing.</li> <li>3. Grasp the center of the brush by the bristles and pull it up and out the right side of the housing (reuse this piece after inserting the new brush).</li> <li>4. Pull out the brush support from the brush (part n.40- Page. 14). This metal support with ball bearing will be reused with a new brush roller.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                              | <p><b>SOSTITUZIONE DEL RULLO</b></p> <ol style="list-style-type: none"> <li>1. Stendere l'apparecchio sul lato sinistro.</li> <li>2. Sfilare il coperchio laterale (parte n. 46- pag. 14) dal vano portaspazzola.</li> <li>3. Sfilare il rullo afferrandolo per le setole</li> <li>4. Estrarre il supporto del rullo (parte n. 40- pag. 14) dall'estremità della spazzola (supporto che verrà riutilizzato con la nuova spazzola).</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <p><b>AUSWECHSELN DER BÜRSTE</b></p> <ol style="list-style-type: none"> <li>1. |    | <p>5. Slide brush end transmission side into the base. Push the roller to the end and if necessary rotate a bit until the teeth are engaged on the transmission joint.</p> <p>6. Make sure also that the side bristles are inside the aluminum roller support using the side door for help.</p> <p>7. Follow steps 1-3 in reverse order to reassemble.</p> <p><b>CHANGING THE FILTER</b><br/>Replace or wash the filter for brush motor protection at least once a year.</p>                                                                                                                                                                                                                                                                                                                         | <p>5. Inserire l'estremità del rullo lato giunto di trasmissione nella base. Spingere il rullo fino in fondo e se necessario ruotarlo leggermente fino a far innestare i denti del giunto di trasmissione.</p> <p>6. Assicurarsi che le setole laterali siano all'interno del supporto in alluminio aiutandosi con lo sportello laterale.</p> <p>7. Seguire le istruzioni riportate ai punti da 1 a 3 in ordine inverso per assemblare di nuovo.</p> <p><b>SOSTITUZIONE DEL FILTRO</b><br/>Almeno una volta l'anno sostituire o lavare il filtro di protezione motore elettrospazzola.</p>                                                                                                                                                                                                                             | <p>5. Die Bürstenrolle, auf der Seite mit dem Antrieb im Bürstengehäuse einführen. Die Rolle bis auf den Grund stoßen und falls notwendig leicht abdrehen bis die Zähne des Antriebgelenks einschalten</p> <p>6. Mit Hilfe der Seitenabdeckung sicherstellen, dass sich die Seitenborsten innerhalb der Aluminiumhalterung befinden.</p> <p>7. Beim Zusammenbauen führen Sie die Schritte 1-3 in umgekehrter Reihenfolge durch.</p> <p><b>AUSWECHSELN DES FILTERS</b><br/>Den Schutzfilter des Elektrobürstenmotors einmal pro Jahr auswechseln oder waschen.</p>                                                                                                                                                                                                                                    | <p>5. Introduire l'extrémité de la brosse côté joint de transmission dans la base. Pousser la brosse jusqu'au fond et si nécessaire tourner légèrement jusqu'à encaster les dents du joint de transmission.</p> <p>6. S'assurer que les poils latéraux soient à l'intérieur du support en aluminium en s'aidant avec le couvercle latéral.</p> <p>7. Pour le remontage, suivre les indications en sens inverse de 1 à 3.</p> <p><b>CHANGEMENT DU FILTRE</b><br/>Changer ou laver le filtre de protection du moteur de la brosse au moins une fois par an.</p>                                                                                                                                                                                                                                                                                            | <p>5. Introducir la extremidad del cepillo lado junta de transmisión en la base. Empujar el cepillo hasta el fondo y si necesario girar suavemente hasta encajar los dientes de la junta de transmisión.</p> <p>6. Asegurarse de que las cerdas laterales sean en el interior del soporte de aluminio ayudándose con la tapa lateral.</p> <p>7. Seguir las instrucciones 1-3 en orden inverso para montar otra vez.</p> <p><b>SUSTITUCIÓN DEL FILTRO</b><br/>Sustituir o limpiar el filtro que protege el motor del cepillo batidor por lo menos una vez al año.</p>                                                                                                                                                                                                                                                                                       |

# RX eco FORCE

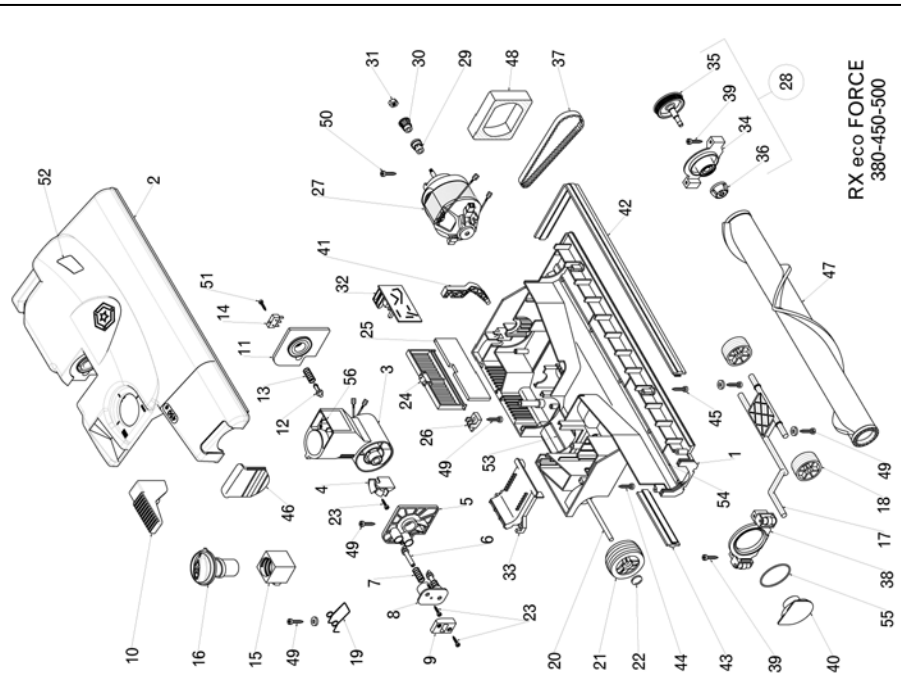

**Suction Body    Corpo aspirante**  
**Beutelgehäuse    Corps aspirant**  
**SPARE PARTS LIST - LISTA PARTI DI RICAMBIO**  
**LISTE DER ERSATZTEILE - LISTE PIÈCES DE RECHANGE**  
**LISTA PIEZAS DE RECAMBIO**

| PART. | DESCRIPTION                  | PART. | DESCRIPTION                |
|-------|------------------------------|-------|----------------------------|
| RX 1  | Bag housing cover            | RX 38 | Terminal block 2-3 pos.    |
| RX 4  | Door latch kit               | RX 39 | Foam motor filter          |
| RX 3  | Grill filter holder          | RX 40 | Motor gasket               |
| RX 4  | Safety bag support kit       | RX 41 | Bag door latch + spring    |
| RX 5  | Internal filter              | RX 42 | Exhaust microfilter        |
| RX 6  | Bag entrance complete        | RX 43 | Exhaust grill              |
| RX 7  | Buttons+support+spring (kit) | RX 44 | External grill complete    |
| RX 8  | Swivel round dust            |       |                            |
| RX 9  | Support round dust           | RX 46 | Blocking joint support     |
| RX 10 | Bag housing complete         | RX 47 | Blocking joint pin         |
| RX 11 | Valve kit                    | RX 48 | Control pin slide          |
| RX 13 | O ring                       | RX 49 | Vacuum motor housing       |
| RX 14 | Extension hose with Handle   | RX 50 | Lower curve                |
| RX 15 | Crevice tool / wand clip     | RX 51 | Curve support 2 wires      |
| RX 16 |                              | RX 51 | Curve support 3 wires      |
| RX 17 | Handle grip (only)           | RX 52 | Upper curve                |
| RX 18 | Handle adapter               | RX 53 | O ring                     |
| RX 19 | Chromate tube (only)         | RX 54 | Inner vacuum motor housing |
| RX 20 | Cord clip                    | RX 55 | Hose inlet                 |
| RX 21 | Handle tube assembly         | RX 56 | Cord clamp 2 wires         |
| RX 22 | Ele. System ass. 120/60      | RX 56 | Cord clamp 3 wires         |
| RX 22 | Ele. System ass. 100/55      | RX 57 | Vacuum motor V. 240/50     |
| RX 22 | Ele. System ass. 230/50      | RX 57 | Vacuum motor V. 120/60     |
| RX 23 | Cord 2x1Schuko - Swiss plug  | RX 57 | Vacuum motor V. 100/55     |
| RX 23 | Cord 2x1UK - Australian plug | RX 58 | Foam filter group          |
| RX 23 | Cord 3x18 AWG USA plug       | RX 59 | Crevice tool               |
| RX 24 | Strain relief                | RX 60 | Telescopic wand            |
| RX 25 | Cable clamp                  | RX 61 | Contact cover              |
| RX 26 | Vacuum sensor                | RX 62 | Contact housing            |
| RX 27 |                              | RX 63 | Comb wire cover            |
| RX 28 | Main switch 16A              | RX 64 | Grill hook kit             |
| RX 29 | Indicator light lens         | RX 65 | Screws 3.5 x 13            |
| RX 30 |                              | RX 66 | Screws 3.9 x 65            |
| RX 31 | Central Handle / Cord hook   | RX 67 | Screws 3.5 x 22            |
| RX 32 | Electric panel housing       | RX 68 | Screws 3.5 x 16            |
| RX 33 | Circuit board V100-120       | RX 69 | Screws 3.5 x 25            |
| RX 33 | Circuit board V230/50        | RX 70 | Screws 3.5 x 19            |
| RX 34 | Comb wire holder             | RX 71 | Screws 3.9 x 13            |
| RX 35 | Cover electric panel         | RX 72 | Screws 3.9 x 22            |
| RX 36 | Foam filter intermediate     | RX 73 | Screws 2.9 x 16            |
| RX 37 | Gasket                       | RX 74 | Screws 3.9 x 16            |

## Power Nozzle 380 (15") – 450 (18") – 500 (20")

| PART. | DESCRIPTION                       | PART. | DESCRIPTION                       |
|-------|-----------------------------------|-------|-----------------------------------|
| RX 1  | Body, Main brush head 380-450-500 | RX 30 | Pinion                            |
| RX 2  | Brush cover 380-450-500           | RX 31 | Nut M4                            |
| RX 3  | Joint complete                    | RX 32 | Circuit board                     |
| RX 4  | Joint pin slide                   | RX 33 | Channel cover                     |
| RX 5  | Support right joint               | RX 34 | Transmission support              |
| RX 6  | Plunger                           | RX 35 | Pulley                            |
| RX 7  | Spring release pedal              | RX 36 | Nut M6 six                        |
| RX 8  | Double pin bush                   | RX 37 | Timing belt H.7                   |
| RX 9  | Double release plate              | RX 38 | Side wheels support               |
| RX 10 | Foot pedal                        | RX 39 | Screw, 3.9 x 16                   |
| RX 11 | Support left joint                | RX 40 | Roller support                    |
| RX 12 | Switch activator pin              | RX 41 | Side lever                        |
| RX 13 | Spring                            | RX 42 | Front bumper 380-450-500          |
| RX 14 | Microswitch                       | RX 43 | Back bumper 380-450-500           |
| RX 15 | Regulator                         | RX 44 | Screw, 4.8 x 50                   |
| RX 16 | Adjusting knob                    | RX 45 | Screw, 3.5 x 38                   |
| RX 17 | Front axle                        | RX 46 | Side cover Brush                  |
| RX 18 | Front wheel nylon                 | RX 47 | Brush roller 380 -450 -500        |
| RX 19 | Spring brush adjust               | RX 48 | Motor filter                      |
| RX 20 | Shaft for rear wheels             | RX 49 | Screw, 3.9 x 13                   |
| RX 21 | Rear rubber wheel                 | RX 50 | Screw, 3.5 x 25                   |
| RX 22 | Wheel retainer                    | RX 51 | Screw, 2.2 x 16                   |
| RX 23 | Screw, 2.9 x 16                   | RX 52 | Lens                              |
| RX 24 | Filter grill                      | RX 53 | Felt seal replacement             |
| RX 25 | Exhaust filter                    | RX 54 | Base metal guides set 380-450-500 |
| RX 26 | Stop grill plate                  | RX 55 | O' ring                           |
| RX 27 | Brush motor W 180 (380)           | RX 56 | Male elect. connection. set       |
| RX 27 | Brush motor W 200 (450-500)       | RX 57 | Screw 3.9 x13 sv                  |
| RX 28 | Transmission support complete     |       |                                   |
| RX 29 | Pinion spacer                     |       |                                   |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | | <div><div><div>Lindhaus Certificato di Garanzia limitata</div><div><div>La Lindhaus garantisce ai Clienti originali solo (diretti acquirenti) che ogni nuovo aspirapolvere sarà esente da difetti di materiale e di fabbricazione prima della consegna. La responsabilità della Lindhaus e la tutela del cliente nei confronti della Lindhaus, è chiaramente limitata alla riparazione e sostituzione dei pezzi difettosi presso la ns. fabbrica o centro autorizzato di assistenza, con trasporto prepagato dal cliente. Il certificato di garanzia limitata Lindhaus è da considerarsi <b>nullo e non valido</b> se l'apparecchio non è stato acquistato presso un rivenditore autorizzato Lindhaus. Gli apparecchi Lindhaus utilizzati per <b>uso professionale</b> sono garantiti 2 anni.</div><div><div><b>NON SONO COPERTI DALLA GARANZIA:</b><br/>- Danni causati da incidenti, cattivo uso, fulmini, acqua e fuoco. - Danni causati dal trasporto - Apparecchi a noleggio - Rotture dovute a una non appropriata manutenzione o cura. - Minori adattamenti tipo: viti allentate e regolazioni varie.<br/>- Riparazioni non effettuate dalla fabbrica o dai centri assistenza autorizzati - Parti sottoposte ad usura normale: manici, ruote trasportatrici, spazzole, dispositivo di accoppiamento delle spazzole, bocchette, tubi, sacchi per polvere, filtri, cavi, spazzole motore non dovranno essere considerati difetti di produzione o di materiali.</div><div><div><b>Questa garanzia copre tutti i difetti di fabbrica e di materiali per il periodo di garanzia. La garanzia non copre nessun danno risultante da cattivo uso, abuso e negligenza nell'uso del prodotto o qualsiasi parte che necessiti la sostituzione a causa di normale usura.</b><br/>L'eventuale sostituzione in garanzia dei motori avverrà pertanto soltanto in caso di difetto di fabbrica accertato dai centri assistenza autorizzati Lindhaus. Se dopo l'ispezione di una macchina o di pezzi ritornati, la Lindhaus stabilisce che il difetto non è coperto da garanzia, tutte le spese che la Lindhaus incontrerà nella riparazione della macchina o delle parti, saranno a carico del cliente. Tutte le parti ritornate alla Lindhaus per sostituzione diventeranno di proprietà della Lindhaus. <b>IN NESSUN CASO, LA LINDHAUS SARA' RESPONSABILE PER DANNI INDIRETTI, ACCIDENTALI CONSEGUENTI DA ALTRI DANNI.</b> La Lindhaus non sarà responsabile nei confronti dei clienti per rivendicazioni, danni, lesioni, azioni o cause di azioni qualsiasi basate su negligenze o precise responsabilità. I ricambi originali Lindhaus dovranno essere privi di difetti di materiale per un periodo di 90 giorni dopo l'installazione e saranno sottoposti a tutte le limitazioni ed esclusioni del presente certificato di garanzia limitato. La Lindhaus non garantisce che i suoi prodotti siano vendibili o che le sue macchine possano essere usate per ogni altro fine. Inoltre la Lindhaus non fornisce alcuna ulteriore garanzia eccetto per la presente garanzia limitata. Nessuna ulteriore rappresentazione o garanzia, espressa o implicita fatta da rivenditori, rappresentanti o agenti della Lindhaus che non sia specificata nella presente dovrà ricadere sulla Lindhaus.</div></div></div></div></div></div> |

**Lindhaus Limited Warranty**

Lindhaus warrants to the original purchaser only ("Buyer") that each new vacuum cleaner shall be free from defect in material and workmanship upon delivery. Lindhaus' liability is limited to repair or replacement of parts at the discretion of Lindhaus and/or the factory authorized service centres, transportation prepaid (Buyer expense). The Lindhaus Limited Warranty is absolutely **null and void** unless the appliance has been purchased from an Lindhaus Authorized Dealer. A warranty registration card is to be completed and returned immediately at the time of purchase. Specific limitations and exclusions apply. Lindhaus equipment used in **commercial applications** has a limited warranty of **two years**.

**ITEMS NOT COVERED BY WARRANTY INCLUDE, BUT ARE NOT LIMITED TO:**

- Damage resulting from accidents, abuse, misuse or acts of God (lightning flood, etc.)
- Damage in transit; Rental units
- Failure due to lack of proper maintenance or care
- Relatively minor adjustments such as tightening of screws or bolts, etc. not connected with the replacement of parts.
- Repairs or alterations by an organization other than the factory or an authorized Lindhaus Service Centres.
- Normal wear and tear items: handles, wheels, bristles, nozzles, hoses, paper bags, filters, cords, carbon brushes shall not be consider a defect in workmanship or materials.

**"This warranty covers all defects in workmanship and material for the warranty period. The warranty does not cover any damage resulting from any misuse, abuse or neglect of the product or any parts needing replacement due to normal wear and usage."**

The eventual substitution of the motors under warranty will therefore be affected only in case of production defect (this has to be verified by the authorized Lindhaus service centres). If, after inspection of the returned machine or any part or parts, Lindhaus determines that the defect is not covered by the warranty, all expenses incurred by Lindhaus in connection with the replacement or repair if the machine or any parts thereof shall be at the buyer's responsibility. Any parts returned to Lindhaus for replacement shall become the property of Lindhaus.

In no event shall Lindhaus be liable for any indirect, special, incidental, consequential or other damages including but not limited to damage or loss of property or equipment, lost revenues or profits, claims of customers, or harm to goodwill or business reputation directly or indirectly arising from the sale, handling or use of the vacuum cleaner, or from any other costs relating thereto and Lindhaus's liability hereunder. shall not be liable to the buyer for any claims, damages, injures, actions, or causes of action whatsoever based on negligence or strict liability. Lindhaus makes no warranty that its vacuum cleaner shall be merchantable or that such machine shall be fit for any particular purpose. Moreover Lindhaus makes no expressed or implied warranties except for the limited warranty set forth herein. In addition no representation or warranty, expressed or implied, made by any dealer, sales representative, or field agent of Lindhaus which is not specifically set forth herein shall be binding on Lindhaus. Genuine Lindhaus replacement parts shall be free from defects in material and workmanship for a period of 90 days after "installation" and shall be subject in all respects to the limitations and exclusions of this limited warranty.

---

**Lindhaus beschränkter Garantieschein**

Lindhaus garantiert den Originalkunden (nur den Direktkäufern), daß jeder neue Staubsauger vor der Lieferung frei von Material- und Fabrikationsfehlern ist. Die Haftung von Lindhaus und der Kundenschutz gegenüber Lindhaus beschränkt sich offensichtlich auf die Reparatur oder den Austausch der defekten Teile in unserer Fabrik oder in einem autorisierten Kundendienstzentrum, bei vom Kunden vorausbezahltem Transport. Die beschränkte Lindhaus Garantie ist absolut **null und nichtig** ausser wenn das Gerät bei einem autorisierten Lindhaus Händler gekauft worden ist. Die Garantieregistrationskarte sollte gleich beim Kauf ausgefüllt und retourniert werden. Alle Lindhaus Geräte für den **professionellen Gebrauch** haben eine Garantiedauer von **zwei Jahren**.

**AUSGENOMMEN VON DER GARANTIELEISTUNG SIND:**

- Schäden, die durch Unfälle, Mißbrauch, Blitzschlag,
- Wasser oder Feuer verursacht werden.
- Transportschäden; Mietgeräte; Brüche, die auf eine unsachgemäße Wartung oder Pflege zurückzuführen sind
- Geringere Anpassungen wie: gelockerte Schrauben und verschiedene Regulierungen
- Reparaturen, die nicht von der Fabrik oder den autorisierten Kundendienstzentren durchgeführt worden sind
- Verschleißteile: Griffe, Transporträder, Bürsten, Vorrichtungen für die Kupplung der Bürsten, Rohransätze, Schläuche, Staubbeutel, Kabel, Filter

**Diese Garantie deckt alle Fabrikations- sowie Materialfehler während der ganzen Garantiedauer. Die Garantie deckt keine Schäden, die auf unkorrekten Gebrauch, Missbrauch und Vernachlässigung im Gebrauch des Produkts zurückzuführen sind sowie alle Teile die nach normaler Abnutzung ersetzt werden müssen.** Die eventuelle Auswechslung des Motors in Garantie wird nur dann stattfinden, wenn sichergestellt wurde, (von den autorisierten Lindhaus Kundendienstzentren) dass es sich um einen Fabrikationsfehler handelt und nicht bei totaler Abnutzung. Wenn Lindhaus bei der Überprüfung eines eingesandten Geräts oder eingesandter Teile feststellt, daß der Fehler nicht von der Garantie gedeckt wird, gehen alle Reparaturkosten des Geräts oder der Teile zu Lasten des Kunden. Alle zum Austausch an Lindhaus zurückgesandten Teile gehen in den Besitz von Lindhaus über.

**IN KEINEM FALL WIRD LINDHAUS FÜR INDIREKTE, UNVORHERGESEHENE SCHÄDEN HAFTEN, DIE SICH AUS ANDEREN SCHÄDEN ERGEBEN.** Lindhaus haftet gegenüber dem Kunden nicht für Ansprüche, Schäden, Verletzungen, Handlungen oder Gründe für Handlungen jeglicher Art, die auf Nachlässigkeit oder bestimmte Verantwortung beruhen. Die originalen Lindhaus Ersatzteile müssen nach der Installation für einen Zeitraum von 90 Tage frei von Materialfehlern sein und unterliegen allen Beschränkungen und Ausschlüssen des vorliegenden beschränkten Garantiescheins. Lindhaus garantiert nicht, daß seine Produkte für jeden Zweck verkäuflich sind oder benutzt werden können. Außerdem gibt Lindhaus mit Ausnahme der vorliegenden beschränkten Garantie keine weitere Garantie. Keine weitere ausgesprochene oder miteinbegriffene Darstellung oder Garantie, die von Verkäufern, Vertretern oder Agenten von Lindhaus gemacht wird, die nicht in der vorliegenden Garantie genau angegeben ist, darf auf Lindhaus zurückfallen.

| <p><b>Lindhaus certificado de Garantía limitada</b></p> <p>Lindhaus garantiza a los clientes originales (sólo directos compradores) solamente que cada nueva aspiradora estará exenta de defectos en material y fabricación antes de la entrega. La responsabilidad de Lindhaus y el recurso exclusivo del cliente contra Lindhaus están claramente limitados a las reparaciones y sustituciones de las piezas defectuosas por nuestra fábrica o por el centro de asistencia autorizado Lindhaus con transporte prepagado por el cliente. El certificado de garantía limitada Lindhaus está considerado nulo o no válido si el aparato no ha sido adquirido a un revendedor autorizado Lindhaus.</p> <p>La tarjeta registración de garantía tiene que ser rellenada y enviada en seguida en el momento de la compra.</p> <p>Los aparatos Lindhaus utilizados para uso profesional están garantizados <b>2 años</b>.<br/><b>QUEDAN EXCEPTUADOS DE LA GARANTÍA:</b></p> <ul style="list-style-type: none"><li>• Los daños provocados por accidentes, uso incorrecto, rayos, agua, y fuego.</li><li>• Daños causados por el transporte.</li><li>• Máquinas de alquiler.</li><li>• Rupturas debidas a la carencia de un apropiado mantenimiento o cuidado.</li><li>• Modificaciones menores como: ajuste de tornillos, reglajes varios.</li><li>• Reparaciones no efectuadas por la fábrica o por los centros de asistencia autorizados.</li><li>• Piezas que se gastan por su uso: mangos, ruedecillas, cepillos, dispositivo de emparejamiento de los cepillos, boquillas, tubos, bolsas de papel, cables, etc.</li></ul> <p>Esta garantía cubre todos los defectos de fábrica y de materiales durante el periodo de garantía. La garantía no cubre ningún daño derivante por uso incorrecto, abuso y negligencia en el uso del producto o cualquier pieza que necesite ser reemplazada por desgaste normal.</p> <p>Eventual sustitución de los motores en garantía serán efectuada sólo en caso de defecto de fábrica comprobados por los centros de asistencia autorizados Lindhaus. Si después de la inspección de la máquina o de cualquier pieza devuelta, Lindhaus determina que el defecto no lo cubre la garantía, todos los gastos que Lindhaus encontrará en la reparación de la máquina o de sus piezas, serán a cargo del cliente. Cualquier pieza devuelta a Lindhaus para su sustitución, pasará a ser propiedad de Lindhaus.</p> <p><b>EN NINGÚN CASO LINDHAUS SERÁ RESPONSABLE DE DAÑOS INDIRECTOS, ACCIDENTALES CONSIGUIENTES DE OTROS DAÑOS.</b> Lindhaus no será responsable de reclamaciones, daños, lesiones, acciones o causas de acciones, cualquiera que sean, basadas en negligencias o precisas responsabilidades. Los recambios originales Lindhaus tendrán que estar libres de defectos de materiales por 90 días a partir de la instalación y tendrán todas las limitaciones de garantía hasta aquí descritas. Lindhaus no garantiza que sus productos sean vendibles o que sus máquinas puedan ser usadas para otros fines. Además Lindhaus no ofrece alguna garantía ulterior, excepto por la presente garantía limitada. Ninguna ulterior representación o garantía, expresa o implícita, hecha por consignatarios, representantes o agentes de Lindhaus que no sea especificada en la siguiente, tendrá que recaer en Lindhaus.Lindhaus Certificat de Garantie</p>                                                                | <div></div> <div></div> <p>Spett.le<br/><b><u>LINDHAUS S.r.l.</u></b></p> <p>Via Belgio, 22</p> <p><b><u>35127 PADOVA - ITALY</u></b></p> |
